

We seek undergraduate students actively working on computing topics!

UNIST ECE and Naver jointly seek undergraduate students who are intensively performing research or development on computing topics to present the NAVER UNIST Undergraduate Poster Awards (Naver UUPA). Students are invited to submit individual or team posters from their internships, startups, or private activities.

■ Topics of interest

- Machine Learning / Deep Learning
- Voice Recognition
- Speech Synthesis
- Machine Translation
- Natural Language Processing / Understanding
- Data mining & recommendation engines
- Big Data Modeling, Analysis, Processing
- Computer Vision, Image/Video Processing / Recognition
- Human Computer Interaction
- Human Robot Interaction
- Security (Mobile / IoT / Forensic / Cryptography / Vulnerability Assessment / Infra Security)
- Embedded systems
- Audio Signal Processing / Music Information Retrieval
- Information Retrieval
- Other Computing Topics (can be interpreted very broadly)

■ **Period of application:** Until 2017.11.24 (must be submitted)

■ **Selection process:** Onsite poster review (Location: EB2 Lobby, Date: 12/08 (TBD))

■ **Eligibility:** Undergraduate student of UNIST (belonging to any department)

■ **How to apply:** Submit your application email to naveruupa@gmail.com

(Title of the email should be “ [Naver UUPA] - Your names ”)

- List of your names and student IDs (specify 1st and 2nd track besides)
- Title of your poster
- Summary of your poster (5 - 10 lines in English or Korean)

■ **What's next after application:** Check the poster samples provided below and complete your poster by 11/30. Get feedbacks on your poster by sending it to the email address above and revise it accordingly. Print your final version with us by 12/6.

- Poster samples: <http://goo.gl/trjGv>

■ **Awards:** NAVER Undergraduate Poster Award and cash prize (about \$18,000 in total)
